Item 2. Management Discussion and Analysis of Financial Condition and Results of Operations (Based on the unaudited consolidated financial statements for the period ended June 30, 2025)

Business Overview

Shakey's Pizza Asia Ventures Inc. (SPAVI) or PIZZA, is the market leader in chained pizza full service restaurant, chained full service restaurant, and chained kiosks with 69.2%, 23.6%, and 14.4% market shares, respectively, based on 2024 and 2023 data from Euromonitor.

PIZZA has 50 years of brand legacy in the Philippines. Originally an American brand established in 1954, Shakey's expanded into the Philippines in 1975, and has since become a household name to generations of Filipinos. PIZZA is a strong brand because of its unique products paired with excellent guest service. It is best known for its original thin crust pizza and iconic Chicken N' Mojos.

PIZZA owns the trademarks and licenses to operate the Shakey's brand in the Philippines. With this, it has full control over the management and execution of Shakey's Philippine operations. As the brand owner, PIZZA generates additional revenue from franchising while not having to pay royalty fees for the use of the Shakey's name. PIZZA also owns the rights and trademarks in Asia (except Malaysia and Japan), China, Middle East, Australia and Oceania. This gives the company international expansion opportunities in the long-term. As of today, PIZZA operates stores in the Philippines, United Arab Emirates and Singapore.

PIZZA is able to serve the A, B and upper C income classes through its various sales channels. PIZZA's dine-in segment caters mostly to families and friends who want an affordable upgrade from the usual fast-food dining. At the same time, PIZZA also reaches its guests through its delivery segment. With the shift of consumer trend towards safety and convenience, PIZZA ensures that it continues to operate well-designed, comfortable, clean and guest-oriented stores, operate an efficient delivery system for guests, and expand its online sales platform to align itself with current market and consumption trends.

PIZZA is accessible nationwide through various store formats. These formats differ in size ranging from 120 sqm to 400 sqm. Smaller stores tend to need lower capital investment. This allows PIZZA

flexibility to serve the demand of a specific market, while still achieving the desired profitability.

PIZZA has an in-house commissary that supplies proprietary raw materials and other baked products to Shakey's stores. With this vertical integration strategy, product quality is preserved and controlled while also enabling for higher sales margins.

Finally, PIZZA operates a simple business model that is cash generative and requires low upfront costs due to the simplicity of its products. This model enables high financial liquidity and an average payback period of 3 to 4 years. PIZZA also has a well-established franchised model with an industry-leading return on investment averaging 4 years.

In 2016, Century Pacific Group Inc. (CPGI) and the sovereign wealth fund of Singapore acquired majority ownership of PIZZA. CPGI is the parent company of Century Pacific Food Inc. (CNPF), the largest manufacturer of canned food in the Philippines.

Subsequently, on December 15, 2016, PIZZA successfully listed on the Main Board of the Philippine Stock Exchange (PSE) with a total of 1,531,321,053 common shares at ₱11.26 per share.

On June 1, 2019, PIZZA acquired Peri-Peri Charcoal Chicken, an emerging fast casual and full service restaurant brand in the Philippines. The acquisition includes assets and intellectual property relating to the Peri business, including its brand, trade name, and the various proprietary recipes used by the chain to make its trademark peri-peri chicken.

In August 2020, the Company entered into a master franchise agreement with Singapore-based Koufu Group Ltd to bring the *R&B milk tea* brand to the Philippines. R&B is one of the leading milk tea and bubble tea players in Singapore. It currently has more than 1,000 outlets worldwide, spanning across China, US, Singapore, Cambodia, Vietnam, Malaysia and Indonesia. Under the agreement, PIZZA shall be awarded the territorial rights to sell *R&B milk tea*, bubble tea, and other specialty tea drinks in the Philippines, through stand-alone store formats and co-branding in select *Shakey's* and *Peri-Peri Charcoal Chicken* outlets.

In December 2021, the Company entered into an agreement to purchase assets and intellectual property relating to Potato Corner, with PIZZA assuming the management of the brand beginning March 2022. Potato Corner is one of the leading and most established food kiosk chains in the Philippines. Since its inception in 1992, the brand has built a vast network of over 1,000 outlets domestically and has a growing international footprint in Asia and beyond.

The Group achieved broad-based, volume-led growth across its multi-brand portfolio, fueled by continued investments in store network expansion as well as brand building.
- In terms of profitability, 1H25 gross margins softened by 200 basis points (bps) YoY to 22.3%. This was influenced by the impact of product quality improvements, partially tempered by improving commodities, and investments in network expansion including renovations and pre-operating expenses of new stores.
- Meanwhile, operating expenses as a percentage of sales stood at 13.3% in the first half. Despite investments in major campaigns and sales building promotions, OPEX-to-sales posted a 140bps improvement versus the comparable period due to better cost recovery from topline growth and the inclusion of investments in international in the cost base.
- As a result, 1H25 core EBITDA clocked in at ₱1.1 billion while core NIAT landed at ₱427 billion. This demonstrated a growth of 17% and 2% YoY respectively – a reflection of SPAVI's investments in new store openings. Control is achieved when the Parent Company is exposed, or has rights, to variable returns from its involvement with the investee and when it has the ability to affect those returns through its power over the investee.

Specifically, the Parent Company controls an investee if and only if the Parent Company has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee),

- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee,
- Rights arising from other contractual arrangements, and
- The Group's voting rights and potential voting rights.

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the nine elements of control. Consolidation of a subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the unaudited interim condensed consolidated statement of comprehensive income from the date the Parent Company gains control until the date the Parent Company ceases to control the subsidiary.

Profit or loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Parent Company loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

The unaudited interim condensed consolidated financial statements include the accounts of the Parent Company and the following subsidiaries:

As of December 31, 2022, the fair values of the assets acquired assumed were finalized; no changes from the initial recognition were recognized by the Group.

The goodwill of ₱60.9 million reflects the expected growth in the Group's business and Group management attributes the goodwill to achieving synergies and economies of scale arising from its common processes from its existing operations and contacts with suppliers and other partners to improve cost and efficiency. The goodwill is not deductible for tax purposes.

5. Segment Information

Segment information is prepared on the following bases:

Business Segments

For management purposes, the Group is organized into three business activities - Restaurant sales, franchise and royalty fees and commissary sales. This segmentation is the basis upon which the Group reports its primary segment information.

- Restaurant sales comprise revenues from restaurant activities and sale of merchandise and equipment to franchisees.
- Franchise and royalty fees represents payment of subdealers for use of the Shakey's brand.
- Commissary sales comprise third party sales other than aforementioned activities.

Inter-segment Transactions

Segment revenue, segment expenses and operating results include transfers among business segments. The transfers are accounted for at competitive market prices charged to unrelated customers for similar services. Such transfers are eliminated upon consolidation.

The Group's chief operating decision maker monitors operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit and loss in the consolidated financial statements.

On a consolidated basis, the Group's performance is evaluated based on consolidated net income for the year, EBITDA and EBITDA margin. EBITDA margin pertains to EBITDA divided by gross revenues.

Long-term facility loan

On June 8, 2016, the Group entered into an Omnibus Loan and Security Agreement (OLSA) with BDO Unibank, Inc. (the Lender) and SAFHI. The lender provided a term loan facility in the principal amount of ₱5,000.0 million.

The loan is payable within 10 years to commence on the 12th month following the availment date. Payments shall be made in 18 consecutive semi-annual installments of ₱25.0 million and a final payment of ₱4,550.0 million.

The loan's interest is to be fixed at the higher of 5-year PDST-R2 plus a spread of 0.75% or 4.5% floor rate for the first 5 years, to be repriced at the last 5 years. Management has assessed that the interest rate floor on the loan is an embedded derivative which is not for bifurcation since the market rate approximates the floor rate at the transaction date.

The loan facility also contains a prepayment provision which allows the Group to make optional prepayment in the amount calculated by the lender comprising (i) the outstanding principal amount of the Loan to be prepaid, and (ii) any accrued interest on the principal amount of the Loan being prepaid computed as of the date of prepayment. The prepayment option was assessed as closely related to the loan and thus, was not bifurcated.

On December 22, 2016, the Group notified BDO of its intention to prepay the loan amounting to ₱1,000.0 million. The exercise of the prepayment option resulted in the revision of estimated future payments and change in the carrying amount of the financial liability as at December 31, 2016.

As long as any portion of the loan is outstanding and until payment in full of all amounts payable by the Group under the loan documents are made, the Group is required to comply with certain affirmative covenants, unless the Lender shall otherwise give its consent in writing:

- b. The net proceeds from the loan shall be used for the purpose of refinancing the bridge loan.
- c. Financial covenant during the term of the Term Loan:
 - i. its Debt Service Coverage Ratio is at least 1.2x. - d.
