Business Overview

Shakey's Pizza Asia Ventures Inc. (SPAVI or the "Company") or PIZZA, is the market leader in both chained pizza full service restaurant and chained full service restaurant with 63.4% and 28.2% market share based on 2016 Euromonitor data. As of September 30, 2017, it operates a total of 200 stores nationwide, a mix of Company-owned and franchise stores.

PIZZA has over 40 years of brand legacy in the Philippines. Originally an American brand established in 1954, Shakey's expanded into the Philippines in 1975, and has since become a household name to generations of Filipinos. PIZZA is a strong brand because of its unique products paired with excellent guest service. It is best known for its original thin crust pizza and iconic Chicken N' Mojos.

PIZZA owns the trademarks and licenses to operate the Shakey's brand in the Philippines, thus it has full control over the management and execution of Shakey's Philippine operations. Since PIZZA owns the brand, it generates additional revenue from franchising while not having to pay royalty fees for the use of the Shakey's name. PIZZA also owns the rights and trademarks in Asia (except Malaysia and Japan), China, Middle East, Australia and Oceania. This gives the company international expansion opportunities in the long-term. PIZZA opened its first international store in Kuwait last October 2017.

PIZZA is able to serve the A, B, and upper C income classes through its various sales channels. PIZZA's dine-in segment caters mostly to families and friends who want an affordable upgrade from the usual fast-food dining. At the same time, PIZZA appeals to consumers' need for convenience through its delivery segment. PIZZA ensures that it continues to operate well-designed, comfortable, clean, and guest-friendly stores, run an efficient delivery system, and

expand its online sales platform to align itself with current market and consumption trends.

PIZZA has an in-house commissary that supplies proprietary raw materials and other baked products to Shakey's stores. With this vertical integration strategy, product quality is preserved and controlled while also enabling for higher sales margins.

PIZZA operates a simple and scalable business model that is cash generative and requires low upfront costs due to the simplicity of its product. This enables high financial liquidity and an average store payback period of 3-4 years. PIZZA also has a well-established franchised model, which allows it flexibility to expand in new growth areas such as Visayas and Mindanao.

In 2016, Century Pacific Group Inc. (CPGI) and the sovereign wealth fund of Singapore acquired majority ownership of PIZZA. CPGI is the parent company of Century Pacific Food Inc. (CNPF), the largest manufacturer of canned food in the Philippines.

Subsequently, on December 15, 2016, PIZZA successfully listed on the Main Board of the Philippine Stock Exchange (PSE) with a total of 1,531,321,053 common shares at ₱11.26 per share.

<u>Approval and Authorization for the Issuance of the Unaudited Interim Condensed Consolidated</u> Financial Statements

The unaudited interim condensed consolidated financial statements were approved and authorized for issuance by the Parent Company's Board of Directors (BOD) on November 6, 2017.

2. Basis of Preparation and Consolidation and Statement of Compliance

Basis of Preparation

The unaudited interim condensed consolidated financial statements have been prepared on a historical cost basis, except for available-for-sale (AFS) investments which are carried at fair value. The unaudited interim condensed consolidated financial statements are presented in Philippine peso, which is the Group's functional currency. All values are rounded off to the nearest million, except those otherwise indicated.

Statement of Compliance

The unaudited interim condensed consolidated financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis of Consolidation

The unaudited interim condensed consolidated financial statements comprise the unaudited interim condensed financial statements of the Parent Company and its wholly-owned subsidiaries and are prepared for the same reporting year as the Parent Company, using consistent accounting policies.

Control is achieved when the Parent Company is exposed, or has rights, to variable returns from its involvement with the investee and when it has the ability to affect those returns through its power over the investee. Specifically, the Parent Company controls an investee if and only if the Parent Company has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee),
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the unaudited interim condensed consolidated statement of comprehensive income from the date the Parent Company gains control until the date the Parent Company ceases to control the subsidiary.

Upon consolidation, all intragroup balances, transactions, income and expenses and profits and losses resulting from intragroup transactions are eliminated in full.

Changes in the controlling ownership (i.e., acquisition of non-controlling interest or partial disposal of interest over a subsidiary) that do not result in a loss of control are accounted for as an equity transaction.

The unaudited interim condensed consolidated financial statements include the accounts of the Parent Company and the following subsidiaries:

5. Segment Information

Segment information is prepared on the following bases:

Seasonality of Operations

The Group's operations are not generally affected by any seasonality or cyclicality.

Business Segments

For management purposes, the Group is organized into three business activities - Restaurant sales, franchise and royalty fees and commissary sales. This segmentation is the basis upon which the Group reports its primary segment information.

- Restaurant sales comprise revenues from restaurant activities and sale of merchandise and equipment to franchisees.
- Franchise and royalty fees represents payment of subdealers for use of the Shakey's brand.
- Commissary sales comprise third party sales other than aforementioned activities.

Inter-segment Transactions

Segment revenue, segment expenses and operating results include transfers among business segments. The transfers are accounted for at competitive market prices charged to unrelated customers for similar services. Such transfers are eliminated upon consolidation.

The Group's chief operating decision maker, monitors operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit and loss in the unaudited interim condensed consolidated financial statements.

On a consolidated basis, the Group's performance is evaluated based on consolidated net income for the year EBITDA and EBITDA margin. EBITDA margin pertains to EBITDA divided by gross revenues.

EBITDA and EBITDA margin are non-PFRS measures.

On September 8, 2016, the Group entered into an Omnibus Loan and Security Agreement (OLSA) with BDO Unibank, Inc. (the Lender) and SAFHI. The lender provided a term loan facility in the principal amount of \$\mathbb{P}5,000.0\$ million for the purpose of refinancing the bridge loan of SAFHI. SAFHI shall in turn pledge its 100% ownership shares of all of its subsidiaries.

The loan is payable within 10 years to commence on the 12th month following the availment date. Payments shall be made in 18 consecutive semi-annual installments of ₱25.0 million and a final payment of ₱4,550.0 million.

The loan's interest is to be fixed at the higher of 5-year PDST-R2 plus a spread of 0.75% or 4.5% floor rate for the first 5 years, to be repriced at the last 5 years. Management has assessed that the interest rate floor on the loan is an embedded derivative which is not for bifurcation since the market rate approximates the floor rate at the transaction date.

The loan facility also contains a prepayment provision which allows the Group to make optional prepayment in the amount calculated by the lender comprising (i) the outstanding principal amount of the Loan to be prepaid, and (ii) any accrued interest on the principal amount of the Loan being prepaid computed as of the date of prepayment. The prepayment option was assessed as closely related to the loan and thus, was not bifurcated.

Interest expense amounting to \$\mathbb{P}\$130.4 million and \$\mathbb{P}\$63.6 million was recognized for the nine months ended September 30, 2017 and 2016, respectively.

On December 22, 2016, the Group notified BDO of its intention to prepay the loan amounting to \$\textbf{P}1,000.0\$ million. The exercise of the prepayment option resulted in the revision of estimated future payments and change in the carrying amount of the financial liability as at December 31, 2016. On January 3, 2017, the Group exercised its option to prepay. Break-funding costs related to the exercise of the prepayment option amounted to \$\textstyle{P}21.4\$ million.

So long as any portion of the loan is outstanding and until payment in full of all amounts payable by the Group under the loan documents are made, the Group covenants and agrees that, unless the Lender shall otherwise consent in writing, it shall among others comply with the following affirmative covenants:

- a. Ensure that at all times its obligations will constitute its secured, direct, unconditional and unsubordinated obligations, and any of its residual obligation not satisfied out of the proceeds of the Collateral shall rank and will rank at all times at least pari passu in priority of payment and in all other respects with all its unsecured obligations, save for such obligations in respect of which a statutory preference is established solely by operation of law.
- b. The net proceeds from the loan shall be used for the purpose of refinancing the bridge loan.
- c. Financial covenant during the term of the Term Loan:
 - i. its Debt Service Coverage Ratio is at least 1.2x. Debt Service Coverage Ratio is as of the date of determination, the ratio of EBITDA less regular dividends and advances to shareholders over Debt Service. For purposes hereof, "EBITDA" means operating profit before interest, taxes, depreciation and amortization, each item determined in accordance with PFRS, and the term "Debt Service" means the aggregate amount of the succeeding year's principal amortization for the Loan, interest, fees and other financial charges made or due in respect thereof payable by the Borrower, provided that one (1) year prior to the maturity of the Loan, "Debt Service Coverage Ratio" shall mean the ratio of sum of the beginning cash balance and EBITDA less regular dividends and advances to shareholders over Debt Service:
 - ii. its Debt to Equity Ratio does not exceed 5.0x within the first two years from the Borrowing under the Term Loan and 4.0x thereafter.

The foregoing financial covenant shall be tested every six months based on annual audited or unaudited semi-annual consolidated financial statements. The Company obtained a letter from the lender dated June 30, 2016 waiving the DSCR and Debt to Equity Ratio requirements for the period ended June 30, 2016 and granted a twelve-month grace period within which the Group can rectify the breach and during which the lender cannot demand immediate repayment. Furthermore, on January 27, 2017, the OLSA was amended to include June 30, 2017 as the commencement date for the testing for the financial covenant ratios.

- d. Within the period required, open and establish the Debt Service Reserve Account (DSRA); and ensure that the funds deposited in the DSRA is at all times maintained in accordance with the agreement.
- e. Prior to the assignment or transfer of any trade names, copyrights, trademarks, patents and other intellectual property rights or licenses currently held by the Group or any wholly-owned subsidiary of the Group, the Group shall pledge in favor of the Lender, under the terms and conditions of the Pledge under the Omnibus loan and security Agreement, all the outstanding shares of the Group in such wholly-owned subsidiary.

As of September 30, 2017 and December 31, 2016, the Group is in compliance with the aforementioned affirmative covenants. Accordingly, the non-current portion of the loan remains as noncurrent liability in the unaudited interim condensed consolidated statement of financial position as of September 30, 2017 and in the audited consolidated financial position as of December 31, 2016.

16. Financial Risks Management Objectives and Policies

The Group's principal financial instruments comprise cash and cash equivalents, AFS investments and loan to a related party. The main purpose of these financial instruments is to finance the Group's operations. The Group has various other financial assets and liabilities such as trade and other receivables, rental deposit, accounts payable and other current liabilities arising directly from operations and dividends payable.

A financial asset is considered past due when a counterparty has failed to make a payment when contractually due. "Past due but not impaired" financial assets are items with history of frequent default. Nevertheless, the amounts due are still collectible. Lastly, "Impaired" items are those that are long outstanding and have been specifically identified as impaired.

The tables below show the credit quality of the Group's neither past due nor impaired financial assets based on their historical experience with the corresponding debtors:

Fair value is defined as the amount at which the financial instruments could be exchanged in a current transaction between knowledgeable willing parties in an arm's length transaction, other than in forced or liquidation sale.

Financial Instruments Whose Carrying Amounts Approximate Fair Value.
